Summary of Technical Skills

I have 3 years experience of website design and development using latest technology. I also specialize in logo and brochure design, multimedia presentation both in PowerPoint and Flash. I have worked as freelance web designer catering to clients in India as well as US.

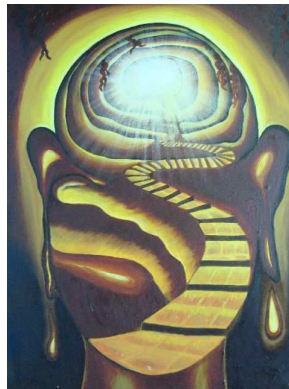

I paint my imagination presently only with oil on canvas, conforming mostly to contemporary art and few landscapes. Being Computer Designer as profession most of my paintings have started with my mouse and later they go with the brush on canvas. I have completed around 10 paintings a hue of which has been added to my website. Most of my paintings are unframed and done on Canvas Board (Arfina Make marketed by Camlin).

A Glimpse of my work

Exhibitions Held: Participated in group show organized by Thapasiya School of Arts, Chennai between 17th & 24th November 2008. Path to Enlightenment was put on show which won me BEST Artist Award.

Death in the womb
